DATA SCIENCE

Mode: **ONLINE**

Overview

The Bachelor's program in Data Science represents a rigorous educational journey, thoughtfully designed to mold graduates into adept professionals equipped with essential technical and professional competencies essential for tackling the multifaceted challenges within the realm of data science. Participants will gain comprehensive

lytics, data mining, computational intelligence, machine learning, statistical learning, scalable algorithms, and the optimization of expansive databases.

Career Prospects:

Graduates of this program can explore diverse and promising career trajectories, including but not limited to:

- . Data Scientist
- . Data Analyst
- . Machine Learning Scientist
- . Machine Learning Engineer
- . Business Intelligence Scientist
- . Market Research Analyst

PROGRAMME DURATION

4 Years

Fee
KES 105,000
per year

Admission Requirements

A candidate must satisfy the general University admission criteria for undergraduate programmes.

- A mean grade of C+ and above at KCSE **OR**
- Diplomas or professional qualifications **OR**
- A certificate of foundation or bridging courses from recognised institutions **OR**
- A portfolio for the purpose of recognition of prior learning **OR**
- Kenya Advanced Certificate of Education with a minimum of 1 principal **OR**
- A bachelor's degree from an institution recognised by Senate.

2024/2025
Intake Ongoing

Government Funding

KUCCPS placed students are eligible for government scholarship and HELB loans

Flexibility

Students can customize their learning experience to fit their unique needs and commitments; with the freedom to choose courses and set their own learning pace

Inclusivity

Diversity is celebrated, and efforts are made to ensure that all students and staff have access to resources and support services to enable their success

Openness

Through open admission criteria, affordable tuition options, and online or distance learning programs, the Open University of Kenya strives to removing barrier to access to education and promote lifelong learning

Certification

All students qualify for progressive certification towards a bachelor's degree:

1. Certificate (one third (1/3) of the credit hours)
2. Diploma (two-third of (2/3) of the credit hours)
3. Degree (programme full credit hours)

POSTGRADUATE DIPLOMA IN LEARNING DESIGN AND TECHNOLOGY

Mode: **ONLINE**

Overview

The Postgraduate Diploma in Learning Design and Technology (PGDLD&T) is an academically enriching voyage aimed at nurturing astute professionals who will excel in crafting, implementing, and deploying innovative learning and performance solutions in the digital realm. Upon completion of this program, learners will have honed the following competencies:

- . Apply pedagogical design principles and cutting-edge learning theories to proficiently develop, execute, and deploy effective learning and performance solutions.
- . Undertake rigorous investigations into technology-enhanced strategies, harnessing a diverse array of information sources to bolster the delivery of impactful learning experiences.
- . Plan and methodically assess technology-facilitated learning endeavors, leveraging foundational principles, theories, and empirical research to fuel continuous enhancement.
- . Meticulously select and adeptly utilize a plethora of digital technologies and methodologies to optimize learning and performance solutions.
- . Champion the transformation of online pedagogy through strategic leadership grounded in unwavering professional values.

Career Prospects:

Graduates of this program can pursue diverse and rewarding career paths, including but not limited to:

- . Instructional Designer
- . E-Learning Developer
- . Educational Technology Specialist
- . Learning Management System (LMS) Administrator
- . Digital Curriculum Developer
- . EdTech Consultant
